

Introductions

I am Tanisha Gupta. Originally from the beautiful land of forest, Jharkhand. I have done my schooling from JAC (Jharkhand board). Right now I am pursuing my bachelor in engineering with the specialization in computer science from RGPV Bhopal with a current CGPA of 8.34.

I recently participated in SIH 2023 i.e. Smart India hackathon, where our team, addressing a Ministry of power challenge. We were the top 5 team out of 500+ solution is submitted national wide.

I secured 917 rank in coding ninjas computation held across India. Attended the coding ninjas workshop on DSA. And also volunteered at AICTE & Ministry of education IDE Bootcamp this Bootcamp was inspired by Prime Minister Mr. Narendra Modi.

I also interested in research, I have authored three papers. Beyond academics I've develop my passion for drawing and painting.

I am an active member of prestigious organizations, the "International association of engineering" & "Association of computing Machinery".

In ACM I proudly serve as the chairperson.

Gaining practical experience I have done 3 internship.

I have 5 star rating in C & python on hacker rank. And I have achieved 'A' grade in logical ability and computer programming on Am cat exam. I also participated in various hackathon.

Recognized for dedication, I received the 'most dedicated student award' from my college. And right now I am the President of my college. I also contributing to technical events, I served as the vice technical head for inforia2023.
